Introduction

Thanks for using TunePat Hulu Video Downloader!

[TunePat Hulu Video Downloader](#) is a versatile application for downloading high-definition videos from Hulu. It comes with an ads filtering feature and an intelligent search engine, which can directly download ad-free videos from the built-in Hulu web player. In addition, TunePat adds some advanced download options for selecting specific video quality, audio tracks, and subtitles as you need. It can export Hulu videos in MP4 or MKV format that is compatible with more devices, letting you enjoy Hulu videos on any device.

Key Features

- Download HD movies and TV shows from Hulu.
- Keep audio tracks and subtitles.
- Save Hulu video in MP4/MKV format.
- Download Hulu video at a fast speed.
- No need to install the Hulu app.
- Free updates & technical support.

Purchase TunePat Hulu Video Downloader

To buy a license key for TunePat Hulu Video Downloader, click [here](#).

1. Why should I buy TunePat Hulu Video Downloader?

The trial version of TunePat Hulu Video Downloader enables you to download only the first 5 minutes of each video. After you purchase the product, you will get the register email and register code to unlock the limitations.

2. What benefits do I have after registration?

- Unlimited use during the subscription period without any function restrictions.
- FREE upgrades to the latest versions of the same product.
- FREE technical support.

Register Tunepat Hulu Video Downloader

Step 1: Run TunePat Hulu Video Downloader on your Windows PC or Mac, click the **“Menu”** button at the upper right corner of the interface, and choose **“Register”** in the drop-down list. Or you can directly click on the key icon to open the registration window.

Step 2: Copy and paste the **registration email** and **code** you received into the registration popup window, then click on the **“Register”** button.

Step 3: Once finishing the registration process, the limitations of the trial version will be removed.

Tips:

1. Make sure your computer is well-connected with the Internet.
2. We suggest you should just copy & paste the registration information into the popup dialog.
3. Make sure both the registration email and registration key are provided by our company after purchasing. If you have not paid, please click **“Buy Now”** to get a license.
4. Please make sure the registration email and registration key you entered are both complete and correct, otherwise an error message will pop up as below:

Log into Hulu Account

Run TunePat Hulu Video Downloader on your Windows or Mac computer. Choose a Hulu site according to your account location. Then click on the “LOG IN” button on the built-in web player, followed the login window will pop up. Please log in to Hulu with your account.

Customize Output Settings

Click the **“Setting”** button on the upper right corner to open the settings window. There are some parameters for your choice, including the video format (MP4 or MKV), video quality (High, Medium, and Low), the languages of audio tracks and subtitles, the output path, and more.

Search for Hulu Videos to Download

Enter the name or URL of the video into TunePat's search bar and hit "Enter". TunePat will find the related videos for your reference. Or find your desired video through the built-in Hulu web player. Open the video description page, and then click on the green arrow **"Click to download this title"**.

Select Advanced Download Settings

In the advanced download settings window, you can select specific video quality, audio track, and subtitle for the chosen videos. If you are downloading a movie, you get the options once you click the arrow. If you are downloading a TV show, you can select the season and episodes you want to first, then click the **“Advanced Download”** button to get the options.
